DAMIAN RICHARD DU PREEZ

Full-Stack Software Developer

Pretoria, Gauteng, South Africa • damian@codesolve.co.za • codesolve.co.za • damian-portfolio-2026.web.app

EXECUTIVE SUMMARY

Cum Laude Information Technology graduate and Full-Stack Developer specializing in **React, Next.js, TypeScript, and Firebase**. Deploys production-grade web applications, interactive scoping tools, and administrative platforms. Combines core software engineering principles with AI-assisted workflows to build secure, accessible, and responsive software solutions for businesses and client engagements.

TECHNICAL EXPERTISE

Frontend Engineering	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, React Context, Framer Motion, Responsive UI/UX Design
Backend & Cloud	Node.js, Firebase (Cloud Firestore, Authentication, Cloud Storage, Hosting, Security Rules), RESTful APIs, Webhooks
Tools & Workflows	Git, GitHub, VS Code, Vercel, AI-Assisted Development (Gemini / AI Tools), CI/CD Deployments
Core Competencies	Full-Stack Architecture, Component-Driven Design, Dynamic Scoping Systems, Web Performance Optimization, Web Security & POPIA Compliance

TECHNICAL PROJECTS & INDEPENDENT EXPERIENCE

CodeSolve Agency Platform & Interactive Scoping Engine — Independent Full-Stack Developer

Jul 2026 – Present | Pretoria, SA (codesolve.co.za)

- **Core Platform:** Architected and deployed an end-to-end web development agency platform that automates client onboarding through an interactive, multi-step scoping engine.
- **Technical Execution:** Built dynamic React Context and TypeScript state logic to calculate feature budgets, handle multi-currency pricing (ZAR/USD/EUR), and enforce brand design consistency.
- **Database & Security:** Implemented Cloud Firestore with server-side data validation and strict Security Rules to capture, sanitize, and manage client lead submissions in real time.
- **Business Impact:** Automated client lead qualification into a structured submission flow requiring under 2 minutes to complete.

CodeSolve Administrative Dashboard Showcase — Full-Stack Developer

(codesolve-dashboard-showcase.web.app)

- **Core Platform:** Built a secure administrative portal for tracking client scoping submissions, pipeline stages, and operational metrics.
- **Technical Execution:** Developed role-based UI access patterns, Firebase Authentication flows, and structured API fetching routines using React and Tailwind CSS.
- **Business Impact:** Streamlined lead review workflow by providing a centralized operational analytics interface.

Interactive Developer Portfolio — Creator & Full-Stack Developer

(damian-portfolio-2026.web.app)

- **Technical Execution:** Engineered a responsive portfolio showcasing UI component design, Framer Motion animations, and custom time-of-day theme state management.
- **Performance:** Optimized asset bundling, lazy loading, and image delivery to achieve **95+ Lighthouse Scores** across Performance, Accessibility, and SEO with sub-second page loads.

EDUCATION & QUALIFICATIONS

Bachelor of Information Technology in Software Development CUM LAUDE

Conferred April 2026

Belgium Campus iTversity | SAQA ID: 94121 | NQF Level 7 (360 Credits)

- **Academic Distinction:** Graduated Cum Laude with specialization in software engineering, full-stack web architecture, and database systems.
- **Core Modules:** Software Engineering, Web Development, Database Management Systems, Systems Architecture, Object-Oriented Programming, Software Security, Data Structures & Algorithms.
